

Accessing the Online Video Library / Learn360

Did you know that teachers, students, and parents across the province have access to Learn360?

Learn360 is an Online Video Library that has more than 9,000 educational videos, P-12 in a variety of subject areas, that can viewed online. Content includes: documentaries from the CBC, National Geographic, A&E, Sunburst, Learning Zone Express, Weston Woods and TV Ontario.

Students:

The Online Video Library is a valuable research tool students can use for conducting research and gathering information, great for student projects or assignments! Students can search for videos on a variety of topics and watch them online.

Students access Learn360 from school or at home by going directly to the Learn360 homepage (www.learn360.ca) and using their schools username and password to login.

Schools can also post their Learn360 IP authentication link on their school website, this allows students when at school to simply click on the link to login.

Teachers:

Teachers access Learn360 through the EduPortal (<https://edapps.ednet.ns.ca/eduportal>) simply click on “Online Video Library”. Teacher have access to a number of extra features, in addition to conducting searches, they can also create playlists, and both stream and download videos.

For more information:

Learn360 is the video platform LRTS uses to deliver online videos to Nova Scotia schools. Each school has its own username and password, contact the Education Media Library (www.medialibrary.ednet.ns.ca) to obtain your school’s login or for more information.
